JOIN THE NATIONAL REGISTRY OF CERTIFIED MEDICAL EXAMINERS

Certified medical examiners are licensed MDs, DOs, NPs, PAs and DCs who perform physical qualification exams for commercial drivers, based on medical requirements and guidance established by the Federal Motor Carrier Safety Administration (FMCSA). To become certified, health care professionals must complete an accredited training program, register with the National Registry, and pass a certification exam. The NADME NRCME Certification Training Program can simplify this process. Our online program is self-paced, comprehensive, and easy to use. It exceeds the FMCSA's core curriculum requirements, and prepares candidates to pass the NRCME certification examination and become certified medical examiners.

NRCME TRAINING PROGRAM FEATURES & BENEFITS

- Comprehensive NRCME training curriculum.
- Exceeds FMCSA core curriculum requirements.
- Up-to-date coverage of FMCSA guidelines and regulations.
- Materials available in both online & printable formats.
- Convenient, unlimited access – train anywhere or anytime.
- Built-in note taking feature with auto-save and print capability.
- Easy-to-review module chapters.
- Printable reference guide with course content.
- Printable FMCSA forms and reference materials.
- Certification exam prep, study tips, and pre-test content review.
- Practice tests in online and printable formats.
- Printable question bank.
- Approved certificate of course completion.
- Fully accredited up to 18 AMA CMEs or ANCC contact hours.

1 Complete NADME
Online Program

2 Register with the
FMCSA

3 Pass Certification
Exam

Join more than 21,000 Certified Medical Examiners trained by NADME.org.

TRAIN TO BE LEADER IN YOUR FIELD!

The NADME program was developed by transportation industry experts and occupational medicine physicians. It's delivered completely online and provides 14 comprehensive learning modules. You'll receive the critical information required to perform thorough, accurate driver physical exams and prepare for the NRCME certification examination. The program meets requirements for both initial training and 10-year recertification training.

UPON COMPLETION OF THE NADME ONLINE TRAINING PROGRAM MEDICAL EXAMINERS WILL HAVE AN UNDERSTANDING OF:

Background rationale, mission and goals of the FMCSA medical examiner's role in reducing crashes, injuries and fatalities involving commercial motor vehicles.

Identification of the driver and obtaining, reviewing and documenting driver medical history. Including prescription and over the counter medications.

Performing, obtaining and documenting diagnostic tests and obtaining additional testing or medical opinion from a medical specialist or treating physician.

Informing and educating the driver about medications and non-disqualifying medical conditions that require remedial care.

Performing, reviewing and documenting the driver's medical examination.

FMCSA reporting and documentation requirements.

Determining driver certification outcome and period for which certification should be valid.

Familiarization with the responsibilities and work environment of commercial motor vehicle operations.

NADME PROGRAM CONTENT INCLUDES:

Module 1 – FMCSA and the Medical Examiner's Role

Module 2 – Vision

Module 3 – Hearing

Module 4 – Hypertension

Module 5 – Cardiovascular

Module 6 – Respiratory Health

Module 7 – Neuromuscular Disorders

Module 8 – Loss or Impairment of Limbs

Module 9 – Epilepsy, Seizures, and Loss of Consciousness

Module 10 – Insulin-Treated Diabetes

Module 11 – Psychological Disorders

Module 12 – Drug Abuse and Alcoholism

Module 13 – Forms and Recordkeeping

Module 14 – Preparing for the NRCME Certification Exam

WE'LL GUIDE YOU THROUGH THE NRCME CERTIFICATION PROCESS

Once registered for the NADME NRCME Certification Training Program, you'll receive step-by-step instructions for completing the certification process, including registering with the NRCME to obtain your 10-digit National Registry number. You'll also be guided to an approved testing organization to schedule to sit for the certification exam. After passing the exam, newly certified medical examiners will receive a certificate from the FMCSA via email and will be listed on the National Registry of Certified Medical Examiners.
