JOIN THE NATIONAL REGISTRY OF CERTIFIED MEDICAL EXAMINERS

Certified medical examiners are licensed MD's, DO's, NP's, PA's and DC's who perform physical qualification exams for commercial drivers, based on medical requirements and guidance established by the Federal Motor Carrier Safety Administration (FMCSA). To become certified, health care professionals must complete an accredited training program, register with the National Registry, and pass the NRCME certification exam. The NADME NRCME Certification Training Course can simplify this process. Our online program is self-paced, comprehensive, and easy to use. It exceeds the FMCSA's core curriculum requirements, and prepares candidates to pass the NRCME certification examination and become certified medical examiners.

NRCME CERTIFICATION TRAINING COURSE FEATURES & BENEFITS

- ✔ Accurate Full Coverage of FMCSA Guidelines and Regulations
- ✔ Comprehensive DOT NRCME Certification Training Curriculum
